

AEROSPACE: APPLICATIONS FOR COTTON AND NATURAL BASED COMPOSITES

WHY?

Cotton based composites are providing a sustainable material solution to many applications, where an electrical insulating part is required. The material significantly reduces friction e.g. for parts of brakes on the landing gear.

APPLICATION

Von Roll cotton-based composites (known as Canevasite) are approved for many aerospace use since some decades including for:

- + Reinforcement for lavatories and cargo panels
- + Reinforcement for storage bin
- + Cockpit parts (nose, window frames)
- + Landing gear parts

TECHNOLOGY

- + Fine cotton fabric laminate bonded with phenolic resin
- + Flame retardant resin satisfying FAR 25.853
- + Special grade available for best resistance to wear or for miniature parts

KEY PRODUCT: CANEVASITE PF CC

COTTON REINFORCED PHENOLIC LAMINATE

FEATURES

- + Composite laminate made of **cotton cloth** and **high temperature** phenolic based resin system
- + Approved by many OEMs specifications
- + **Excellent mechanical** and **electrical properties**
- + Flame retardant acc. FAR 25.853 12sec
- + **Available as machined parts and tubes**

	Unit	Value
Mechanical properties		
Flexural strength	MPa	135
E-modulus	MPa	7500
Electrical properties		
Breakdown voltage //, 90 °C in oil	kV	24
Thermal/other properties		
Temperature index (TI)	°C	120
Thermal conductivity (ISO 8301)	W /m K	0.20
Friction coefficient	μ	0.3
12s Vertical flammability on 4mm specimens		
Burn length (AITM2-0002 B)	mm	1
After flame time (AITM2-0002 B)	s	0

Products	Composition	Application	Applicable specifications
Canevasite® PF CC 202 and CC 204	Cotton reinforced Phenolic	<ul style="list-style-type: none"> • FST interior parts and tubes • Laminated sheets • Parts for exterior: landing gear components 	<ul style="list-style-type: none"> • NEMA CE and LE • LN 40606 • AIMS 05-24-000 and AIMS 05-24-003 • NCT25-736-01 or MTL-5136
Canevasite® PF CC 60 HV	Cotton reinforced Phenolic	<ul style="list-style-type: none"> • Interior and parts for exterior (e.g. window frames) 	<ul style="list-style-type: none"> • MIL-I-24768
